Dhaka 1230, Bangladesh

INTRODUCTION

Imarat Designers & Consultants is an independent engineering firm located in Nikunja-2, Khilkhet, Dhaka, Bangladesh. It is a versatile firm specializing in structural, architectural, and fire safety, electrical engineering services in Bangladesh. Imarat was established in 2017 with the purpose of filling the vacuum in the total technical approach at the field of engineering consultancy as well as construction, and more precisely to assist and contribute in the safety of ready-made garment (RMG) factories of the nation up to an international standard. Imarat is dedicated to provide highly skilled services to its clients at a competitive price. Nirapon-1 had listed Imarat as a Qualified Assessment Firm (QAF). In addition, Imarat is well-versed in the latest BNBC, AISC, ACCORD/RSC, ALLIANCE/ Nirapon, Primark, Levi's and all key standards rules and regulations.

VISION

Imarat intends to build a brand with the goal of becoming the market leader, as well as establish a sustainable innovative business solution for a variety of relevant engineering services.

MISSION

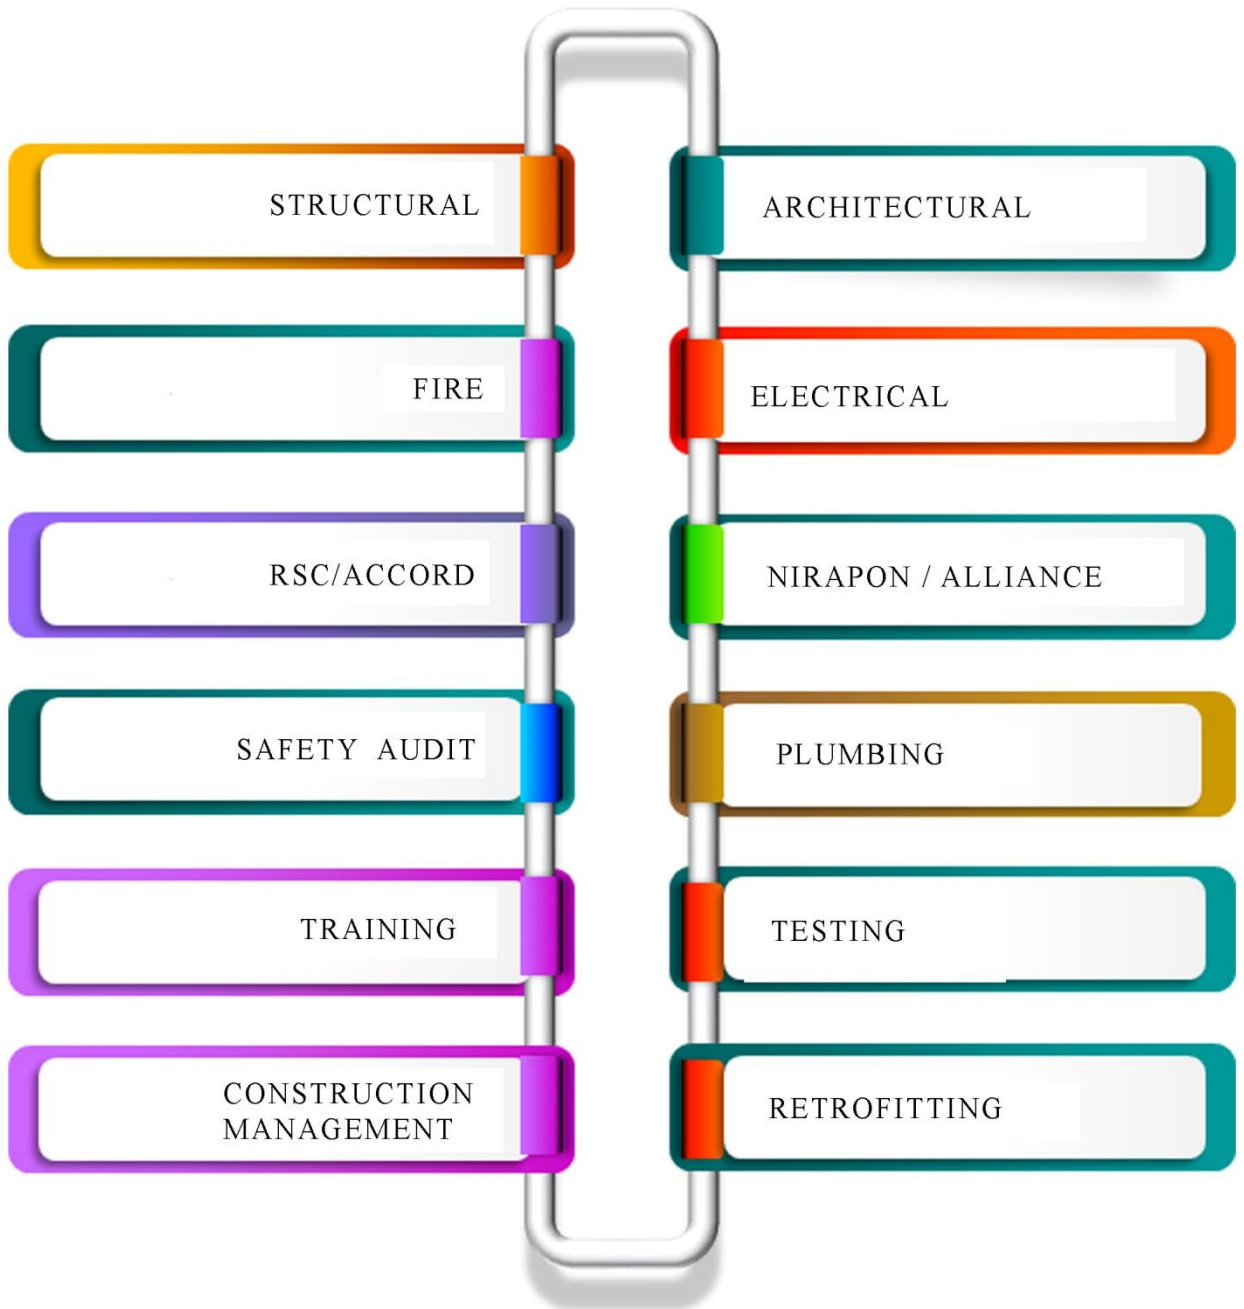

Imarat offers a safe and one-stop trustworthy, hence operationally efficient and cost effective design solution through its professional staff, with the highest priority on client satisfaction.

STRATEGY

Imarat prioritize employee satisfaction. Our engineering team is made up of highly experienced and enthusiastic professionals. We see growth opportunities in remediation, audit design and construction considering all safety aspects. Moreover, we believe our efficient team will help us to be a strong leader in the engineering industry.

Our excellency is in the field of architectural and structural design as well as structural analysis, electrical engineering, fire safety issues, construction management, installation, DT-NDT and related engineering projects.

Imarat always values your ideas. We provide a competent, innovative, and creative approach to product and architectural design, with a focus on environmental sustainability. We are dedicated to providing an acceptable, inventive, and cost-effective and low energy sustainable architectural design solution to our respective client.

Followings are the major scope for architectural field:

➤ Architectural Design & Drawing

➤ Industrial Design

➤ Architectural Top Supervision

➤ Building Renovation

➤ Rajuk/ Pourashava Approval

➤ Interior Design & Implementation

➤ Digital Survey

Our comprehensive approach considers the building's whole life cycle, from initial design to construction and operation to demolition. Our robust design solution helps our clients to achieve high scores under an appropriate evaluation scheme.

Structural Design & Drawing

RSC/Nirapon/DIFE Approval

Residential/Commercial Building

Industrial Building Design

RCC Building Design

Structural Compliance Check

Steel Shed and Building Design

Retrofitting Supervision

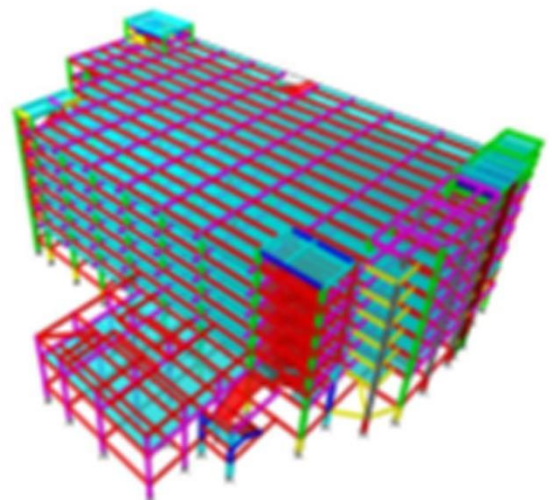

Structural Design Check

Structural Top Supervision

Retrofitting Design

We want to be the leader in fire safety consultancy and implementation. We see a major opportunity in providing solutions for efficient and cost effective fire safety design. Followings are our fire safety related services.

- Fire safety consultancy
- Architectural Drawing Review for Fire Safety
- Supply and Installation
- Fire Detection System
- RSC/Nirapon/DIFE Approval
- Fire Safety Plan
- Fire Sprinkler System
- BOQ Preparation
- Testing & Commissioning with AHJ Approval
- Fire Safety Compliance Audit
- Fire Hydrant System
- As-built Drawing

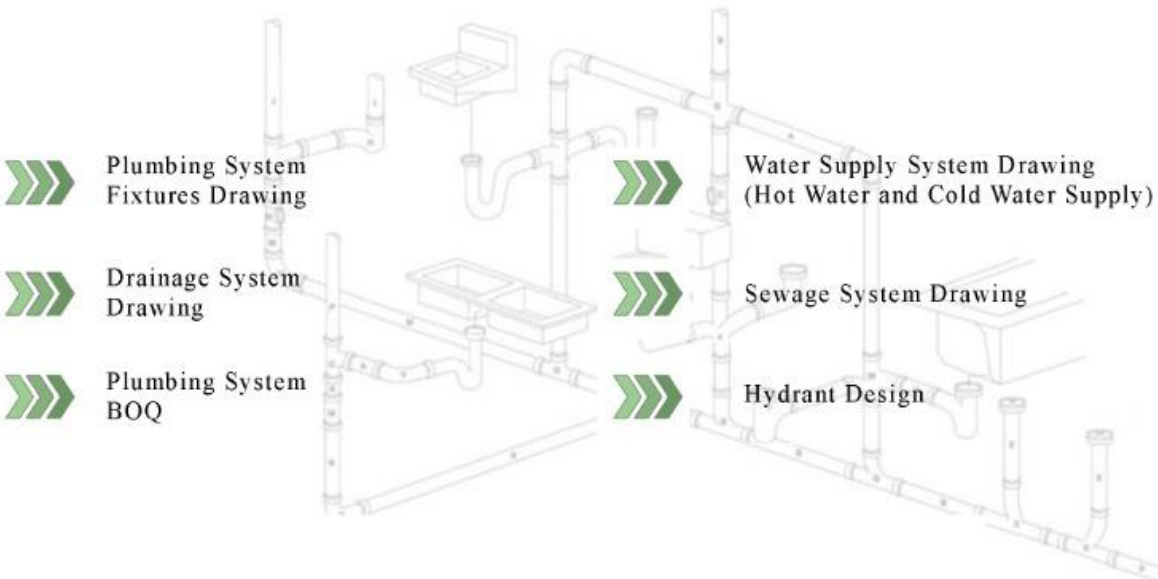

We prioritize electrical safety first and foremost, and we provide a wide range of commercial and industrial electrical services to both the public and private sectors. We impart an efficient electrical solution throughout the lifecycle of a building.

Key services we provide include:

- 
- ▶▶▶ Electrical safety consultancy
 - ▶▶▶ Electrical Single Line Diagram
 - ▶▶▶ Thermal Scan Report
 - ▶▶▶ Electrical Compliance Check Audit
 - ▶▶▶ Electrical Safety Training
 - ▶▶▶ BOQ Preparation
 - ▶▶▶ Electrical Lighting and Power System Layout Drawing
 - ▶▶▶ Insulation Resistance Test Report
 - ▶▶▶ Lightning Protection System Drawing
 - ▶▶▶ Solar System Design (Online and Offline)
 - ▶▶▶ Lightning Protection System Drawing

shutterstock.com · 512428477

We aim to create a sustainable plumbing system that includes safe drinking water in adequate quantities, effective liquid waste removal, and vigilance and quality assurance to reduce the risk of failure.

- 
- ▶▶▶ Plumbing System Fixtures Drawing
 - ▶▶▶ Drainage System Drawing
 - ▶▶▶ Plumbing System BOQ
 - ▶▶▶ Water Supply System Drawing (Hot Water and Cold Water Supply)
 - ▶▶▶ Sewage System Drawing
 - ▶▶▶ Hydrant Design

We provide solutions for your civil engineering testing challenges with quality innovative products and on-going technical support. Our application specialist created a system configuration that produces reliable findings for evaluating your structural or material design issue.
